

State Taxing Guidelines (US)

At times Consultants, Preferred Clients and Retail Clients will contact Customer Service indicating that their state does not allow tax on certain products or fees. We have created this job aid to clarify the taxing guidelines within the United States by state for :

- Shipping & Handling
- Membership and Renewal fees

Please note: Membership fees include Registration, Renewals and/or Upgrading to Consultant.

If you have a Consultant/Client that does not believe that they should be charged tax on shipping, please use the following script:

“Arbonne follows all local and state laws with respect to all tax requirements, including tax on shipping. All states are different -some require tax on shipping and some do not.”

We can also suggest that they contact their local County Commissioner for any additional tax inquiries that they may have.
